

Software Developer & Manager of Engineering Teams - Currently Technical Manager at Globant
hi@iolivares.com · +56 948129086 · linkedin.com/in/ivanolivaresrojas · github.com/ivolivares

Relevant Experience

Digital Operations Manager @ Warner Media

Feb 2021 - Dec 2021 · Santiago, CL

- Lead the development, implementation and support teams of streaming products of Warner Media Latinamerica with mainly focus in Chile.
- Ensure the effective execution of the strategic directions related to the evolution of TVE, B2B and D2C platforms, with the objective to ensure the best digital experiences for consumers.
- Lead OTT projects and supervise external implementation providers, defining and track project scopes, milestones, budgets and characteristics of OTT technologies, assisting the different teams and external partners.
- Seek out the optimization of Digital OTT products and platforms, working in tandem with architecture, development and Digital / OTT Operations teams.

Software Architect @ Globant

Oct 2019 - Jan 2021 · Santiago, CL

- Accountable for defining and designing the proper architecture for web and mobile (hybrid) applications and other types of software systems, meeting customers requirements.
- Implement best practices of software development and ensure they're followed, including selection of tools and frameworks.

Technical Leader @ Globant

Dec 2017 - Jan 2021 · Santiago, CL

- Accountable of team growth, guaranteeing the right technical decisions and following the best practices in software development (in quality, scalability, performance, security, among others), having the big picture of the project.
- Support the business areas to consider the technological decision in the roadmap, mapping the technical debt and release strategies to achieve the expected milestones.

Other experiences @ Globant

- **Software Designer** from Nov 2018 to Sept 2019
- **Senior Developer** from Nov 2017 to Oct 2018
- **Semi-Senior Software Developer** from Jun 2015 to Oct 2017

Semi-Senior Full Stack Developer @ Mediastream

Sep 2014 - May 2015 · Santiago, CL

- Front-end and back-end development of different products related to high demand audio and video streaming (OvP, OTT, web channels, among others).
- Cooperating with the management and organization of streaming events in Chile, Brazil and Colombia.
- Maintenance and development of mobile applications for iOS (native technology).

Startups co-founder

Maxis Tech & Consulting

2010 - 2014 · Antofagasta, CL

- **First try:** Foundation and chief level of the directive board. In it, we built together with a great team, what would become the first product of success in my history as an entrepreneur. The previous thing involved a series of experiences for the creation of products.
- **Second try:** Foundation and management. In it, we achieved the staging of a product (mobile app: "Descubrí") which after being presented to the community, got a private investment.

Achievements & Awards

Globant 2016 - 2019

In 2018 and 2019: "Most rewarded Globber", internally known as "Globber of the year". This award acknowledges the most recognized employee in "StarMeUp" (www.starmeup.com) by other colleagues.

In 2016 and 2017 : "Constantly Innovate" and "Think Big" respectively. I was also recognized in 2016 as Ambassador for Chile of "Globant Labs" (the innovation center of Globant) and in 2017 as "Most Valuable Player" of Chile.

Chilean Government 2013

In 2013, the mobile app "Descubrí" (from Maxis, where I was a co-founder) was recognized by the Government of Chile (via SERCOTEC and "Imagina Chile") as "The best innovation of 2013 at Expo SERCOTEC".
